Email: [info@decachem.com](mailto:info@decachem.com)

Chemical formula: BaSO<sub>4</sub>

Molecular Weight: 233.33

Appearance: White powder, nonpoisonous, nearly insoluble in water, alcohol, and acid, excellent

stability, moderate hardness, high luster, high whiteness, absorbing X-ray and other poisonous radiations.

SPEC	SPECIFICATION	TEST METHOD
Purity	98% min	weight method
PH	6.0-9	acidity meter method
Water Soluble Matter	0.30% max	Hot extraction method
Moisture	0.3% max	weight method
D50	0.6-0.8um	1177
Quantity of Absorbing Oil	10~30%	weight method
Whiteness	94% min	whiteness meter method

Packing: 25kg plastic woven bag With PE inner bag.

Uses: Used in the industry of advanced coatings, plastics, oil paint, printing ink, battery, rubber, glass, cosmetics, frictional materials, etc.
